

SELINDA CAMP

Selinda Camp overlooks the Selinda Spillway, a unique seasonal waterway which links the Okavango Delta with the game-rich floodplains of the Linyanti Swamps. Selinda's 9 spacious, luxury tents are erected under cool thatch canopies, with all units having exceptional views across palm-studded floodplains. The main area comprises a series of expansive decks that invite soaking up the

spectacular views and wildlife that are a visual constant of the camp. The design of the main area is such that there is never a barrier to these views: whether guests are relaxing in the lounge, having brunch under the cool shade of the uniquely designed thatched roof, or sampling the fine cuisine of a three-course dinner on the open "star deck". Set apart from the main area is the photo/art gallery built above a temperature-controlled wine cellar and curio shop. Guests can also enjoy a small plunge pool and the traditional campfire.

The Selinda is characterised by its game-rich floodplains which are host to a variety of bird life (300+), antelope, zebra, cheetah, wild dog, lion and dry season elephant concentrations. Nocturnal species could include serval, porcupine, springhare and possibly leopard.

Each tent has en-suite facilities, a stone bath being the highlight. The bathroom is uniquely "open air" with lots of natural light, yet is screened and virtually insect-proof. The tents are spacious and beautifully appointed with furniture and features that have been collected from around Africa. Four-poster mosquito nets and overhead fans are standard.

Daily activities revolve around morning, afternoon and night game drives with experienced, professional guides in custom-built 4x4 Land Cruisers. Short walks from camp accompanied by a guide are encouraged to get to know some of the Selinda's smaller creatures.
