

## ZIBADIANJA CAMP

Zibadianja camp is completely redesigned with three new and spacious canvas tents (with a fourth for groups or pilots and guides). With a maximum of six guests (or eight in one group), the emphasis here is on individual hospitality. The camp is perfect for those who favour a more intimate personal experience or those who prefer the entire camp for their own, exclusive use.

All of the Chobe wildlife is present at Zibadianja with a varied bird and mammal community. Abundant plains game can be found here including lechwe, kudu, buffalo, zebra and giraffe. It's also a predator-rich reserve including cheetah, wild dog, lion, and leopard. The massive herds of elephant are another highlight.

The new tents have romantic bedrooms, en-suite facilities and a separate, private lounge area.

Activities at Zibadianja are flexible to suit guests' particular interests and include game drives and entertaining nature walks.
