

# Chelinda Camp

## Wilderness Adventures

Chelinda Camp offers guests a truly African alpine experience. It is located at a high altitude on the Nyika Plateau within the Nyika National Park in Malawi. Overlooking a crystal-clear dam with panoramic views of rolling hills, isolated ridges, and open grasslands, Chelinda Camp has access to rich pockets of wildlife endemic to this region.

Accommodation at Chelinda Camp consists of two options. There are four chalets which have two bedrooms, a bathroom, a lounge, a dining area with a fireplace and a small kitchen. Chelinda Camp chalets are ideal for private groups with their own guide. There are also six rooms with twin beds and en-suite bathrooms (either bath or shower) which share a dining area, and a bar and lounge area complete with luxurious furnishings and an inviting fireplace.

Activities at Chelinda Camp revolve around day and night nature drives which explore the rolling hills and patches of evergreen forest of the Nyika Plateau. Nature walks and mountain biking are also very popular. For the enthusiast, there is also the option of fly-fishing for trout. Birders will be pleased to know that some 400 bird species can be found around Chelinda Camp.
