

# Chintheche Inn

## Wilderness Adventures

Chintheche Inn is set on the western shores of central Lake Malawi. The pristine sandy beaches curve endlessly away to the horizon - palm-fringed, dotted by ancient fishing villages and patches of lowland tropical forest. It's no wonder that Chintheche Inn is located in what is considered to be the most verdant region of Malawi. It is an ideal spot for families and groups wanting a

comfortable base from which to explore the region.

Accommodation consists of ten comfortable, brightly furnished rooms with on-suite bathrooms. Each has its own beach-view balcony overlooking the panoramic shoreline of Lake Malawi. The extensive grounds and gardens feature a lively campsite and a large pool. There is a central dining area and bar, although dining usually takes place (weather permitting) under the stars.

Water sports at Chintheche Inn include swimming, snorkelling, windsurfing and sailing. Beach barbeques are an excellent reason to just hang about and get some sun. And for the intrepid, a trip out to deeper waters on a fishing expedition with local fisherman should not be missed. Activities are directed not only at the obvious water sports of a lakeside resort, but also at land based activities and explorations of nearby tropical forest.

Knowledgeable local guides are always on

hand to lead birding walks or hikes in the area, head up mountain biking trails, or to arrange visits to the local fishing villages. The nearby Bandawe Mission also offers a fascinating peek into the country's colonial past.
