

WESTCLIFF

Situated in Johannesburg's most exclusive residential suburb, The Westcliff's hillside setting with cascading, sculpted gardens and elegantly opulent accommodation evoke a bygone era of leisure and refinement in one of the world's most vibrant and cosmopolitan cities. From the outset, The Westcliff hotel has paid tribute to those who helped shape the character of the distinctive suburb from which it takes its name. The various buildings comprising the hotel, and certain rooms are named after some of the old homes in the area, as well as those who designed, built and lived in them.

Each of the extravagantly-sized bedrooms and suites at The Westcliff has been individually decorated by renowned South Africa interior designer, Graham Viney. No two are the same in terms of shape, layout or décor. The configuration of The Westcliff – nine villas and no central lobby – provides cozily intimate settings which assure privacy. The Westcliff

is a charming and romantic retreat - and its accommodations are both ergonomic and unashamedly indulgent. The extravagantly sized rooms and suites all feature gorgeous over-sized marble bathrooms and most have a private balcony overlooking the zoological gardens or one of the estate's charming cobbled courtyards. Others feature sunny patios and the majority have glorious views of the estate's tumbling gardens or the leafy northern suburbs, complete with lush greenery and soothing water features.

The hotel's spa is tucked away amidst the cascading gardens and tinkling fountains of The Westcliff's hillside village. The Botanica Spa Suites is an oasis of indulgence, pleasure, relaxation and radiant transformation in Johannesburg. Three beautifully spacious hotel suites have been converted into calming treatment rooms with en-suite bathrooms and changing areas, where highly trained skincare specialists offer an all-encompassing range of facial and body treatments to suit your specific needs. The elite range of Pevonia Botanica products made from the finest natural marine and botanical ingredients ensure visibly outstanding results. In addition to two private plunge-pools, The Westcliff Estate boasts two heated horizon pools, the most notable being the infinity pool on the Pool Terrace, with a bird's eye view of the Johannesburg Zoological Gardens below. The hotel also offers other such activities including tennis, golf, jogging or cycling, and a gymnasium to suit all workout needs.
