

Chobe Savanna Lodge

Chobe Savanna Lodge, a new luxury lodge, is situated on a peninsula on the northern bank Chobe River in the East Caprivi Strip along the Namibian banks of the Chobe River, Namibia, at the northern extremity of the Chobe National Park. The lodge overlooks the vast floodplains of the Chobe National Park's Puku Flats and is located approximately 90 kilometres due west of Victoria Falls. Access is by boat transfer from Botswana and it is also seasonally accessible by 4x4 vehicles from the Namibian side.

The lodge offers exclusive accommodation and an abundance of wildlife with its own atmosphere, rich and colorful African culture, still upholding its traditions, customs and architecture. The imposing main building at Chobe Savannah Lodge, constructed of thatch and timber balustrades accommodates the lounge, library, dining room, and the 'game viewing bar', which command superb views over the Chobe River and beyond. Furniture, sourced from as far as Asia and the Americas, blends with the African inspired interiors creating a feel in tune with the savannah environment.

Exclusive accommodation provides 12 twin-bedded stylish thatch and brick suites, all with private decks, a combined bedroom/lounge area tastefully furnished in subtle earth tones with an eclectic African theme, and luxurious en-suite bathrooms. The suites are also air-conditioned and have a fully stocked complimentary bar to make guests stay as comfortable as possible.

The charm of Chobe Savanna Lodge, with its sweeping views and wide vistas, lies in its beauty, tranquility and peaceful atmosphere, far from the crowds of large cruise boats and game drive vehicles. The emphasis here is on complete relaxation and solace. Unlike other properties, wherein regimented game activities are prioritized, Chobe Savanna Lodge offers guests the choice of just taking 'time out' or joining in on one of the many safari activities offered at the lodge. Depending upon the time of year, guests are also able to take a canoe excursion along the river, guided walking safaris along the river by professional guides and boat excursions to a nearby traditional village, where one can witness tribal African life.

Facilities include an open-air swimming pool with a beautiful sun deck and an open boma area on the banks of the Chobe River where guests are treated to panoramic views and traditional dancing performed by local villagers.
