

## *Hluhluwe River Lodge*

Hluhluwe River Lodge is a small 24 bed hideaway close to the famous Hluhluwe iMfolozi Park and the coastal marine reserves of the Greater St Lucia Wetland Park. Great comfort, friendly staff, excellent food and lots of exciting activities make this the ideal choice for travelers exploring this diverse and beautiful region.

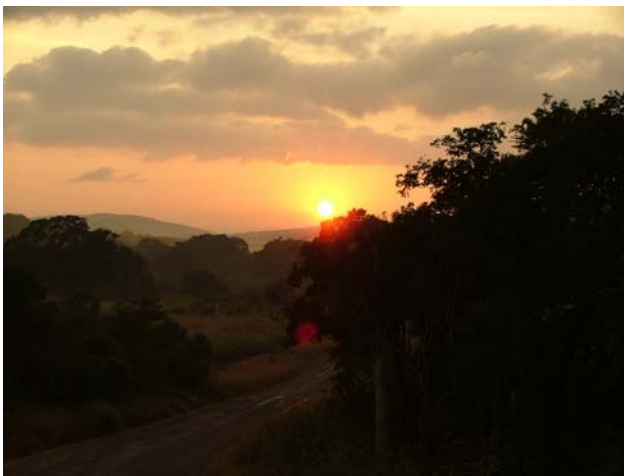

The central living area of the lodge incorporates a lounge, dining room and bar which encircle a delightful garden and expansive terrace which has a splendid 180 degree view of the Hluhluwe river floodplain. The rooms are spread about a rambling indigenous forested garden and there is a swimming pool in a secluded spot away from main guest area.

Your hosts at the lodge are Jurie Van Riel and a dedicated team of fieldguides who will escort you on game drives and a variety of other adventures on offer at the lodge. Lodge 'foodie' Nadine and her team of chefs will ensure that you are well fed with a variety fresh fruit and interesting hot breakfast choices to kickstart your day. After a midday siesta a light lunch is

served just before you depart on your afternoon safari or adventure. Dinners are an ala carte affair with a set starter and a choice of main dishes with a local flavour ranging from fish and poultry to a variety of delicious meats including our speciality venison. Vegetarians and guests with special dietary requirements can specify their needs on or prior to arrival. Dinners are served under the stars in our outside 'isibaya' area when weather conditions permit or on the main lodge terrace, the cosy dining room is the obvious indoor alternative if 'al fresco' ( our favourite ) is not an option. Jurie is our local wine guru and will be glad to recommend a choice from his

extensive list of wines personally chosen from a variety of interesting and alternative South African wine estates.

The atmosphere at the lodge is friendly and relaxed with a home from home approach to hospitality. Our variety of adventures are designed to offer guests a wide choice of activities whether they are active adventure seekers or the relaxed naturalist type content with wildlife, birds and scenery.
