

# Mount Kenya Safari Club

The Mount Kenya Safari Club opened in 1959. Set in over 100 acres of landscaped gardens, the safari club offers outstanding views of Mount Kenya. It is located on the equator, approximately 10 kilometres from the township of Nanyuki and 210 kilometres from Nairobi. Amenities and facilities include seven bars and restaurants, conference facilities, a boardroom, a nine-hole golf course, horse riding, croquet, a putting green, a bowling green, table tennis, a swimming pool and an animal orphanage.

Sited on the lush lower slopes of Mount Kenya at Nanyuki, the Mount Kenya Safari Club offers a unique blend of comfort, relaxation and adventure. Set in manicured lawns, ornamental ponds, flowerbeds, this famous retreat exudes quiet elegance against a dramatic backdrop.

Wildlife within the forests below the park boundary includes elephant, buffalo, lion, several species of antelope including the rare bongo and occasionally the melanistic forms of both the leopard and the serval. Much of this wildlife can be seen from the safety of the Mountain Lodge, which lies just inside the forest on the south side of the mountain.

Mount Kenya has a total of 144 rooms, comprising two villas, 13 riverside and 12 William Holden cottages, eight garden suites and clubrooms and studio suites. All rooms have a private bathroom with shower, telephone and log fireplace. The luxury villas, William Holden cottages and the presidential suite each have a large sitting room. Most rooms also have a private veranda overlooking the majestic Mount Kenya. There is a choice of two restaurants, the Mawingo and the Kirinyaga. There are also two bars, the Zebra Bar and the Trophy Lounge that has a relaxed and friendly atmosphere and is the ideal setting for cocktail parties.
