

## North Island Villas

The Luxury Villas on North Island are created as a fusion of cultures and architectural styles to produce a "Robinson Crusoe styled luxury paradise" unlike any other. They are creatively crafted from wood, stone and glass with ylang-ylang roofing.

North Island, a rare experience in harmony with the environment. The development on North Island

is unashamedly aimed at providing the very best in privacy, location, accommodation, services, facilities and experience. The Island has only 11 guest Villas – exquisitely designed to celebrate nature and offer an authentic home-from-home ambience. The result is a special destination that touches the lives of its guests and inspires them long after they have left.

Each villa is self-contained, with a master bedroom, a writing and change area, an en-suite bathroom with inside and outside showers, small kitchen, a second room which can be used as a bedroom for the family or as a study with all connectivity required for on-line communications, a private plunge pool, air-conditioning, fans. Meals will be prepared on request from the kitchen and served either in the lounge, pool deck or in the bedroom

North Island is an example of a sustainable ecologically sensitive utilisation of a precious natural treasure.
