

# Ongava Lodge

Ongava Lodge is situated along the southern boundary of Etosha National Park in the privately owned Ongava Game Reserve. Ongava is the ideal place from which to base your activities when visiting Etosha. Accommodation comprises twelve air-conditioned brick, rock and thatch chalets, each with en-suite facilities.

Meals are either served in the main dining area under thatch with a view over the camp's water hole, or on the dining deck under the stars. Activities include game drives in open 4x4 vehicles into the Okaukuejo area of Etosha where Lion, Elephant, Cheetah, Gemsbok, Springbok and Hartebeest can be seen at many of the waterholes in the park.

In addition, hides and walks with armed guides are enjoyed on the private reserve. Ongava has resident White and Black Rhino, giving guests staying at Ongava the unique opportunity to see both of these charismatic species.

Ongava Lodge was listed on the *Condé Naste Traveller* Gold Reserve List for 2005.
