

Vakona Forest Lodge

The design of the bungalows has been conceived in the respect of the local Malagasy architecture and in harmony with its biotope.

Each of the ten family bungalows with mezzanine and the fourteen double rooms, have its own terrace with an outside little living room.

In your request twin beds can be exchanged into double beds.

A bathroom with warm water, individual toilets, a personal safety deposit box and a mini-bar are in all our rooms.

VAKONA FOREST LODGE has attached a particular attention to the decoration of its bungalows because after enjoying a fine day, what can be more agreeable than being in a cozy place?

A center fireplace opened at 300° is the principal support of this splendid room. Situated in the middle of the hotel, a glazed restaurant at about 160° gives you a constant view outside, unless you prefer the terrace overhanging the lake. Original and living, this restaurant with always richer cards mixing French, Chinese and for sure Malagasy dishes will satisfy gourmet palates.
