

Best of Central Africa Wing Safari

This safari explores the best of Zambia and Malawi on a safari which can be customised for any duration. The itinerary below works well with eight days. Two of the region's finest wildlife parks are combined with the shores of Lake Malawi to offer a superb wildlife, scenic and cultural experience in one of Africa's friendliest and least spoiled regions. The combination of aerial viewing, open 4x4 vehicle game drives, foot safaris and boating provides guests with an enriching and varied experience.

~Itinerary~

Days 1, 2 & 3: Luangwa Valley

On arrival at Lilongwe Airport, you will transfer to your charter aircraft for the 50 minute flight westwards to the South Luangwa national Park in Zambia. After landing at Mfuwe, you are driven to the camp of your choice. Camps include Tena Tena, Tafika, Kaingo, Nkwali, Kapani or Lion Camp.

The next three nights are spent enjoying the wildlife of the Luangwa in open 4x4 safari vehicles by day and at night, as well as on walking safaris. All the camps are between four and nine rooms - so they offer personal service and flexibility.

Wildlife highlights in the Luangwa include all the big game - Elephants, Lion, Buffalo and in particular, Leopard.

Days 4 & 5: Liwonde National Park - Mvuu

We transfer back to Mfuwe for the charter flight to Malawi, and then fly onto Liwonde National park, one of the most scenic and diverse game parks around. The park straddles the Shire River, the main drainage outlet for Lake Malawi. The attractive riverine forest, dominated by palm, is home to some of the best wildlife in the region - huge Crocodiles, countless pods of Hippo, Sable, Elephants and some of the best birding on the continent await visitors to this park.

Days 6 & 7: Lake Malawi

From Mvuu we travel by road or by air to the remote Chintcheche Inn, situated on the shores of Lake Malawi. The lake here is free of bilharzia and offers safe swimming in the clear waters of one of Africa's largest fresh water lakes. These two nights offer a fascinating contrast to the rest of the safari. Besides the beach and the water-sport activities, guests can visit the neighboring traditional villages and learn about and enjoy rural African culture, traditions and village life.

Day 8: Safari ends

After breakfast you are flown or driven back to Lilongwe where your safari ends.

Daily departures, minimum 2

International
